

A First-Time Ever Offering in India

Orchvate, in partnership with the NASSCOM Foundation, proudly presents the Neuro AI Annotation Training Program. This flagship initiative is designed to empower neurodivergent talent with specialized skills in AI and ML data annotation.

Online Certification Course – Key Features

1. Free of Cost

Our program is offered at no expense, ensuring accessibility to all.

2. Online Learn-from-Home Mode

Experience the convenience of learning from the comfort of your home, facilitated by expert instructors.

3. Exclusively for the Neurodivergent

The program is designed specifically to empower neurodivergent individuals, providing tailored training with relevant accommodations.

4. Guaranteed 6-Month Paid Internship

Upon successful program completion, you are guaranteed paid internship opportunity, providing real-world application of learned skills.

DURATION : 6 MONTHS (24 WEEKS)

MODULES

- BOUNDING BOX
- KEY POINT & SKELETAL
- POLYGON
- PANOPTIC SEGMENTATION
- INSTANCE SEGMENTATION
- SEMANTIC SEGMENTATION

Neuro AI

IMAGE ANNOTATION TRAINING

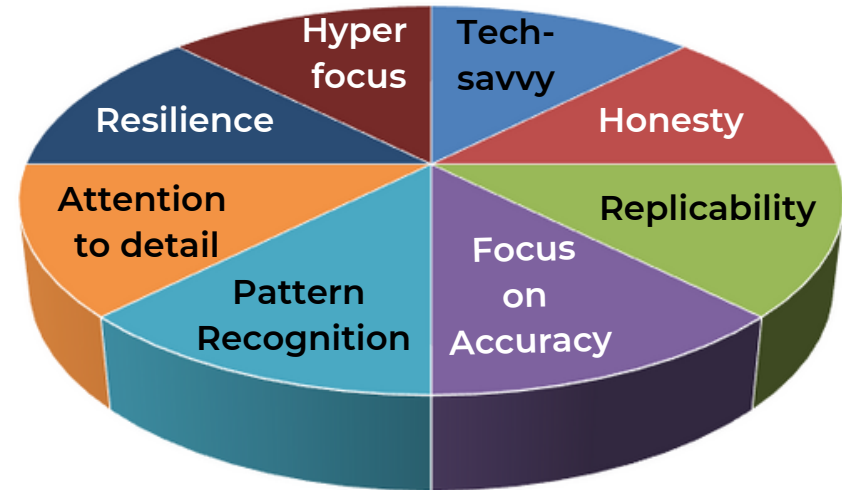

What is Data Annotation

Data Annotation in Artificial Intelligence and Machine Learning refers to creating and validating training data for AI and ML Models.

Why Data Annotation

Data Annotation is the need of the hour and can chart out a career growth path for the neurodivergent.

Why is Data Annotation Suitable for Neurodivergents

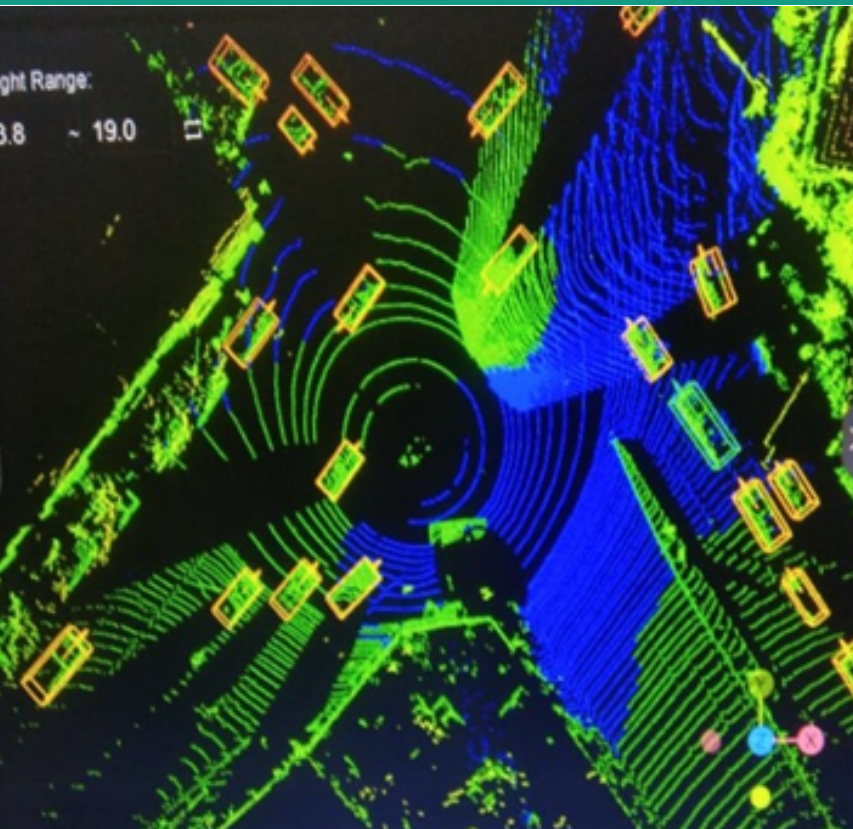

Neurodivergents' Key Strengths are in sync with Data Annotation Competencies

Program Overview

The online program will train participants on all the basic computer vision tasks with reference to diverse use cases to make them employable as annotators in the AI and ML space across sectors like autonomous vehicles, ed-tech, sports tech, and surveillance.

Data Annotation Platform – CVAT

Methodology

- Virtual instructor-led training sessions (2 hours) – twice a week
- Training in small batches of 10
- Self-paced Learning in the form of weekly assignments
- Interactive sessions with personal feedback
- 24*7 trainer access over WhatsApp
- Virtual instructor-led Assessment after each module
- Unlimited platform usage 24*7 for the entire training period
- Accommodations like access to session recordings and ground truth videos
- Certification after successful completion with multiple attempts
